No problem Joan. I'm just happy that you keep me copied. I have not from Terri or Mick

roy thx. Hope u know I didn't think u would forward to HQ or that I was trying to get in the middle of you and terri. I asked mick if he knew what's next in the process because this whole strategy has been changing every day. Quite frankly I'm still unsure as to what happens after u write the desk statement. Don't know if shawn needs to share with sussman. Anyway I think dennis provided some info we didn't have before. Btw shawn is not in office tomorrow. He's supposed to be at event with Adm. Thx. Joan

•Thank you Joan, This looks like a real good document to help me get started. I will coordinate with Dennis and put together and draft desk statement. I will make sure I run it by Shawn, and won't send to HQ without his approval.

Attached is an initial cut at a summary statement regarding the sampling results for the first week of sampling at Dimock. As OPA works off this to develop a press release or other communications
